MEMORANDUM FOR: Colonel J. C. King

J.C.:

The attached requisition has just reached my desk. Only last Friday the Bureau of the Budget people worked me over pretty thoroughly on charges that we were "living too high on the hog" and cited as their justification the fact that we supplied our people with quarters, cars, and other facilities which were in many cases inconsistent with their cover and which their cover agencies could not provide them even if they were bona fide employees of those organizations.

I am prepared to deal with the Bureau or anyone else on such questions if we have a real operational necessity for our deviations. Accordingly, I am prepared to approve of this requisition provided that you give me your personal assurance that it is operationally necessary.
